Professional Skills

Analytics	Exploratory Data Analysis (EDA), Data Auditing, D3.js, Dashboard-based Insight Reporting, SQL
Marketing	Growth Strategy, Social Media Analytics (457% Interaction Boost), Performance Tracking, SEO
Business	Requirement Gathering, Stakeholder Management, Figma Wireframing, Technical Documentation
AI & ML	Supervised Learning, NLP, Predictive Modeling (Churn/Sentiment), Autonomous AI Agents
Tools	PowerBI, Next.js, React, Node.js, PostgreSQL, AWS S3, Firebase, Git, Docker, Blender

Experience

Machine Learning Intern @ Coding Samurai <i>Predictive Analytics & NLP</i>	Jan 2026 – Feb 2026 <i>Remote</i>
- Built a Customer Churn Prediction model to identify at-risk users through behavioral and demographic analysis, focusing on feature engineering to drive business retention strategies. - Developed a sentiment analysis pipeline for social media data to classify emotional intent and market signals.	
Full Stack Developer and Data Engineer @ Sentiment AI <i>Data Strategy & Product Delivery</i>	Aug 2025 – Oct 2025 <i>Dubai, UAE</i>
- Recognized by CEO for high resilience; took full ownership of rebuilding a client dashboard from UI design to backend integration in one week, facilitating immediate business reporting. - Engineered automated ETL pipelines to process raw telephonic data, transforming unstructured CSV logs into actionable behavioral insights for client decision-making. - Developed backend APIs for ontology databases and internal platforms for the evaluation of AI voice agents.	
Marketing Lead @ Google Developer Students Club <i>Growth Marketing & Community Leadership</i>	Sep 2023 – Aug 2024 <i>Dubai, UAE</i>
- Led a data-driven social media strategy that boosted page interaction by 457% and increased total impressions by 215% through original content and video editing. - Managed cross-functional marketing teams (photography/content) for large-scale events like DevFest '23, reaching over 4,500 new unique accounts. - Analyzed community engagement metrics to optimize speaker session content and speaker session visibility.	

Projects

UAE Rental Market Data Dashboard (Data Analyst Project)	Jan 2025 – May 2025
- Designed and developed a D3.js-based interactive dashboard for the UAE rental market. - Performed rigorous EDA to assess data quality and created animated visualizations to display factors influencing tenant behavior, providing a clear narrative of market trends.	
Weather Prediction & Classification Project (Data Analyst and ML Project)	Sep 2024 – Dec 2024
- Achieved 95.7% accuracy for rainfall classification and 94.1% for weather image recognition using CNNs and XGBoost. - Analyzed 40+ years of meteorological data from London and Australia, applying PCA and K-Means clustering for feature engineering.	
Hybrid Computer Vision System (Research Author - AAAI Conference 2025)	2024 – 2025
Authored and published research on a smartphone-based computer vision system; optimized complex AI models for real-world deployment on mobile hardware.	
Full Stack Organizational Manager @ Co-Lab (Business Analyst Focus)	Sep 2023 – Mar 2024
- Managed end-to-end development workflows, delegating tasks and managing timelines to ensure 100% deadline compliance for a collaborative web application. - Acted as the bridge between technical teams and stakeholders by conducting interviews and translating requirements into Figma wireframes and comprehensive technical documentation.	

Competitions & Hackathons

Deriv AI Talent Sprint — Autonomous AI Agents (Deriv + lablab.ai)	2026
- Built an AI-powered HR self-service system using Google ADK in a 48-hour sprint. - Implemented autonomous agents for contract generation, query handling, and adaptive workflow orchestration.	
AI Genesis Hackathon (lablab.ai)	2025
- Developed ProcurePilot, an agentic AI procurement workflow using Opus to automate vendor shortlisting. - Automated vendor evaluation through a multi-stage pipeline, reducing manual procurement overhead.	

Education

Heriot-Watt University <i>BSc (Hons) Computer Science (Artificial Intelligence) — First Class Honours</i>	Sep 2021- July 2025 <i>Dubai, UAE</i>
Deputy Principal's Award for Academic Excellence (x3).	
University of Wollongong <i>Master of Computer Science (Machine Learning and Big Data)</i>	March 2026 - Present <i>Wollongong, NSW, Australia</i>
